DESCRIPTIVE PHENOMENOLOGICAL PSYCHOLOGICAL METHOD: AN ...

The descriptive phenomenological method in psychology was developed by the American psychologist Amedeo Giorgi in the early 1970s. Giorgi based his method on principles laid out by philosophers like Edmund Husserl and Maurice Merleau-Ponty as well as what he had learned from his prior professional experience in psychophysics. Giorgi was an early pioneer of the humanistic psychology movement ...

The Descriptive Phenomenological Psychological Method

Another commonly used approach to thematic analysis is the method presented in the psychology literature by Braun and Clarke . The method is frequently used to find repeated patterns of meaning in the data. However, there is a lack of thematic analysis approaches based on the traditions of descriptive phenomenology.

Qualitative thematic analysis based on descriptive ...

Aim: To provide insight into how descriptive and interpretive phenomenological research approaches can guide nurse researchers during the generation and application of knowledge. Background: Phenomenology is a discipline that investigates people's experiences to reveal what lies 'hidden' in them. It has become a major philosophy and research method in the humanities, human sciences and arts.
